PERSONAL PROJECTS

Re-Imagined

09/2025 – 11/2025

- This website is a modern platform designed to showcase events and exhibitions. It features a clean and interactive layout where users can explore different art showcases, digital installations, and creative programs.

GIFIS

01/2022 – 01/2022

- GIFIS is a dynamic web platform that supports government efforts to enhance industrial safety. It is developed using Laravel for backend operations and Strapi as a headless CMS to manage content and form submissions efficiently.

Mareeb Real Estate

01/2022 – 01/2022

- Mareeb Real Estate is a real estate website I worked on as a freelance frontend developer. The project was built using Laravel on the backend, while I handled the frontend design and development. I focused on creating a responsive user interface that allows visitors to easily browse and filter property listings across all devices.

ATM screen (ALIZZ Bank) and (OAB Bank)

01/2022 – 01/2022

- I develop custom ATM screen interfaces that feature secure login systems, virtual keyboards, and smooth user interaction flows. These screens are designed for touchscreen functionality, allowing users to input their PIN or other information securely using an on-screen keyboard. The system handles authentication, error messaging.

ALMASREF

01/2022 – 01/2022

- Al MASRAF is a dynamic web platform developed using Laravel and Nova, designed to provide world-class banking and trade finance services in the Gulf region.

LEGO

Designed and developed responsive email templates for LEGOLAND® Dubai and LEGOLAND® Water Park, promoting LEGO®-themed attractions and events to families. Focused on creating engaging, brand-consistent, and mobile-friendly emails.
